376060

60L Mobile Oil Dispensing Kit

The Samoa 376060 60L mobile oil dispensing kit from Alemlube is a simple, efficient and cost effective solution for transferring and metering of low volume lubricants in the automotive, transport and forestry industries and is also valuable for applications in general industry, agriculture, marine and aviation.

The 376060 consists of a Samoa 3:1 oil transfer pump designed to fit the 2" bung opening of 60 litre drums, durable Samoa oil control valve with electronic digital display oil meter and a robust, heavy duty drum trolley incorporating two solid wheels and one swivelling wheel with brake.

Mobility is the key for convenience, efficiency and productivity in busy workshops and around service bays. The 376060 60L mobile oil dispensing kit definitely ticks these boxes and many more including top European brand quality, proven reliability and Alemlube after sales support.
