

## O30090 Oil Hose Reel

September 2019

The Alemlube EL Series O30090 Oil Hose Reel is a heavy duty, solidly constructed hose reel manufactured for a long service life in professional & automotive applications.

The EL Series O30090 Oil Hose Reel is protected by corrosion resistant powder coating with two supporting arms & a rust resistant galvanised base.

The reel has been designed with a dual pedestal base for strength and a double supporting 1-3/8" axle with full flow shaft & swivel joint which is structurally reinforced.

Featuring a multi-position locking ratchet, adjustable guide arm, four direction non-sag rollers, the O30090 Oil Hose Reel can be wall, ceiling or floor mounted.
