## Quick Repair Tyre Service Trolley

The Alemlube AAG-212A quick repair tyre service trolley is a fully pneumatic wheel lifter designed for use in automotive workshops and professional tyre service workshops.

Manual lifting of wheels off and onto vehicles is the most common cause of stress and injury in the vehicle service industry.

The AAG-212A significantly reduces this hazard by facilitating quick and easy removal and handling of car & light commercial vehicle wheels resulting from smart and functional design.

Simply operated by two buttons on the trolley handles, the wheel platform equipped with stainless steel rollers is raised to allow perfect alignment of the wheel and wheel hub, then lowers the wheel to a workable height for the wheel to be transferred to the Wheel Transport Trolley (supplied with the Service Trolley). Reducing manual handling, this labour saving device makes working with wheels and tyres extremely OH&S friendly and results in greater efficiency and productivity.

The AAG-212A is manufactured from durable and lasting stainless steel, is fully equipped with four flexible hoses and fittings neatly contained in housings, three inbuilt tool trays and a work platform to keep pneumatic tools close at hand.

Clearly, the Alemlube AAG-212A is the way of the future in helping to prevent back injuries by improving workshop safety, by providing convenience & efficiencies in performing wheel changing operations and ultimately by increasing overall automotive workshop productivity.

### PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

Reduces manual wheel handling & risk of injury

Helps to easily remove and refit car & light commercial vehicle wheels

Manufactured from durable stainless steel

Simply operated by 2 buttons located on the trolley handles

Stainless steel rollers support and guide the wheel into position

Perfectly aligns the wheel to the vehicle hub

Supplied complete with a Wheel Transport Trolley & a Brake Bleeder

Fitted with 4 flexible air hoses with air fittings

3 handy tool trays and a large work platform for pneumatic tools

Air pressure of 1-5kg/m

Height: 112cm

Width: 82cm

Weight: 64kg
