30100

Mobile Waste Oil Extractor/Drainer

The 30100 mobile waste oil extractor/drainer from Alemlube is supplied standard with a height adjustable waste oil collection bowl easily positioned to accept waste oil extracted from engine crankcases, transmissions and differentials. With a holding tank capacity of 80 litres the 30100 has been designed to safely transfer and capture waste oil which can then be emptied from the machine with the aid of air pressure. The 30100 transfers waste oil at a rate of 6.5 litres per minute and the air pressure for the vacuum operates at 120psi (8.2bar) and low noise level. Inclusive of a safety valve to avoid over pressurisation, a large tray for tools, washers, filters etc., two reinforced 4" castors and two 6" reinforced reels the 30100 mobile waste oil extractor from Alemlube is covered by a two year warranty and is sure to provide years of reliable service.

PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

Extracts and captures waste oil from crankcases, transmissions and differentials

Collection bowl capacity of 20L, diameter of 420mm

Holding tank capacity of 80L

Suction speed of 6.5 L/min

Suction hose specification of 1/2" x 2000mm

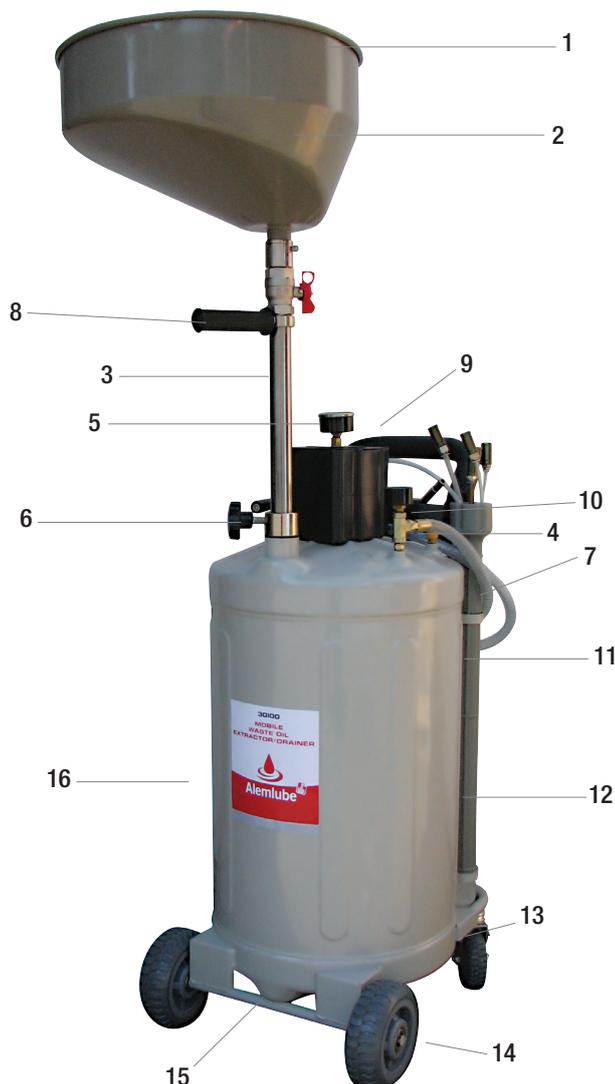

Draining hose length of 1" x 2000mm

Draining pressure of 14psi (1bar)

1/4" air inlet connection

12 month warranty

Also available 30101 as above with clear inspection chamber
