NOVEMBER 2017 Update

O30020 Oil Drip Tray

The Alemlube EL Series O30020 oil drip tray is an efficiently designed workshop accessory that helps to prevent control valve damage and keeps any oil drips contained and away from the workshop floor.

Intended to accommodate all brands of control valves, the EL Series O30020 is a modular design that can be installed as a stand alone unit or multiples side by side.

The catchment tray at the base of the unit is easily removed for draining and cleaning as required.

Simply but effective, The Alemlube EL Series O30020 oil drip tray is an asset to any workshop mindful of keeping on top of OH&S requirements.
