SCK60

60L Quick Response Mobile Spill Containment Kit

The Alemlube SCK60 60L quick response mobile spill containment kit combines an essential range of products for fast and efficient action in containing and disposing of hazardous oil and fuel spills in the workplace.

Employee safety is of primary importance to ensure health and productivity and the Alemlube SCK60 provides the necessary assistance to maintain these vital business principles and to avoid slips and pollution.

All products included in the bag will either contain or successfully clean up oil or fuel spills enabling the workplace environment to be returned to a clean and safe condition.

SCK60 60L quick response mobile spill containment kit consumables are available for purchase to keep supplies adequate for use in the advent of any future oil or fuel spills.
