## 7710B 10L Oil Drum Pump

Update February 2022

**The 7710B 10L Oil Drum Pump is the ideal drum pump for the topping up of engines, differentials and gear boxes.**

Delivering up to 100mL on the downstroke, the drainback nozzle holster ensures that the hose & nozzle assembly and lubricant do not end up on your workshop floor.

The comfortable T handle and smooth pump action ensures lubricant top up jobs are quickly and easily effected.

High quality components and smooth pump action make the 7710B the ideal pump for the transfer of engine oil, gear oil, diff oil and hydraulic oil in vehicle servicing workshops of all kinds.

The combination of an easy pump action delivering lubricant on the downstroke and the UV stabilised hose results in a long service life.
