

O300100

## EL Series Oil Measure Filler Kit with Drip Tray

September 2019

**The Alemlube EL Series O300100 is the ideal oil measure filler kit for dispensing oil with a maximum viscosity of SAE80 from 205L drums and consists of a 1:1 ratio air operated drum pump, oil tap and drip tray.**

Representing excellent value for money, the Alemlube EL Series O300100 gives you the opportunity to upgrade from standard hand operated oil drum pumps to a pneumatic solution.

Delivering up to 10L/min, the O300100 pump is suitable to perform intermittent or seasonal work at a recommended operating pressure of up to 60psi (4bar).

Smart design and easy operation effectively facilitates efficiencies and productivity.

Manufactured with efficiency and reliability in mind, the O300100 1:1 air operated oil measure filler kit is well designed, affordable and is supported by readily available spare parts.

**SPECIFICATIONS, FEATURES AND BENEFITS**

- Effortless oil measure filling
- Smart design and easy to operate
- Delivers up to 10L/min
- Recommended operating pressure of 60psi (4bar)
- Maximum oil viscosity of SAE80
- Air consumption of 5cfm at 140psi
- 1/2" BSP(m) oil delivery connection
- 1/4" quick connect air inlet connection
- Suction tube length of 940mm, diameter 52mm
- Inlet filter protects against foreign particle contamination
- Noise level of 82dB
- Saves time and increases productivity
- Low cost of ownership
