## SAMOA NEX.U.® OIL &amp; FLUID MONITORING

383400

## U.Vision Control Valve with Display

September 2020

The Samoa NEX.U.® Fluid Management System provides you with the control and the information you require to make your operation more profitable. You will be able to account for every drop of lubricant and other service fluids used.

Moreover, NEX.U.® gives you the opportunity to utilise an efficient inventory control with automatic alerts and fluid recording when needed, eliminating operations downtime.

NEX.U.® is suitable for almost any lubricant usage or size of operation and quickly pays for itself. Once paid for, savings go right to your bottom line in the form of profit, profit previously lost.

**Hard-Wired Reliability**

- A constant and reliable power source is always present to power the solenoid valves that control fluid delivery
- No uncharged batteries to let you down
- Hard-wire data transmission to avoid interferences and other obstacles which might interfere with wireless data transmission

**PRODUCT OVERVIEW**

A U.Vision hand-held display module is supplied with a Samoa oil control handle, flexible delivery hose and non drip nozzle. Including a backlit display connected via Bluetooth® with a U.Valve, U.Meter+ or U.Count module, U.Vision displays the following parameters:

- Hose reel (fluid outlet number and fluid dispensed type)
- Battery life and Bluetooth® signal strength
- Volume delivered and operation progress
- If the solenoid valve is open or closed
- **Fluids:**
  - Synthetic and mineral based oil
  - Diesel
  - Antifreeze

**Kit includes:**

383400 (U.Vision display) and 363114 (oil control valve)
