

## 505224S Samoa 15m x 19mm ID Underground Coal Mining Rewind Hose Reel

May 2023

### The Samoa 505224S spring rewind hose reel is aimed directly at the underground coal mining industry.

This 505 Series double pedestal arm design hose reel has no external aluminium parts (replaced by zinc alloy) and is fully compliant and can be put to work in any underground coal mine situation.

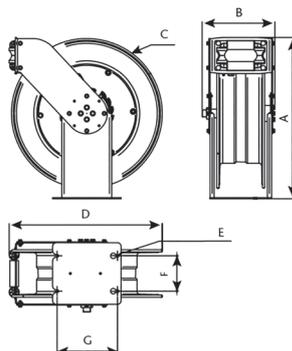

The 505224S Samoa spring rewind hose reel incorporates the spool mounted on two permanently lubricated sealed ball bearings which reduce torque load on the power spring resulting in smooth operation and extreme durability.

Capable of being installed on a wall, ceiling, floor or tank the 505224S outlet mouth can be positioned in any one of seven positions for optimum operation. This rigid and stable structured spring rewind hose reel can withstand the most demanding applications known.

### SPECIFICATIONS, FEATURES AND BENEFITS

- Heavy duty full metal double pedestal construction
- Hose capacity: 15m x 19mm ID
- 1,520psi (105bar) hose pressure rating
- 3/4" (f) inlet thread
- 3/4" (f) outlet thread
- True 3/4" full flow shaft & ports
- Seven position outlet arm
- Full port nickel protected steel shaft
- Large effective radial latching area for easy operation
- Fatigue resistance steel spring for longevity
- Manufactured using 4mm gauge steel
- Weight of 38kg
- Epoxy coated for increased wear resistance
- Width: 248mm

mm (in)	
A	594 (23 3/8")
B	248 (9 7/8")
C	Ø551 (21 3/4")
D	560 (22 1/16")
E	Ø10 (3/8")
F	130 (5 1/8")
G	220 (8 2/3")

### Also available:
