SAMOA NEX.U.® OIL & FLUID MONITORING

383401

U.Vision+ Control Valve with Display & Keypad

September 2020

The Samoa NEX.U.® Fluid Management System provides you with the control and the information you require to make your operation more profitable. You will be able to account for every drop of lubricant and other service fluids used.

Moreover, NEX.U.® gives you the opportunity to utilise an efficient inventory control with automatic alerts and fluid recording when needed, eliminating operations downtime.

NEX.U.® is suitable for almost any lubricant usage or size of operation and quickly pays for itself. Once paid for, savings go right to your bottom line in the form of profit, profit previously lost.

Hard-Wired Reliability

- A constant and reliable power source is always present to power the solenoid valves that control fluid delivery
- No uncharged batteries to let you down
- Hard-wire data transmission to avoid interferences and other obstacles which might interfere with wireless data transmission

PRODUCT OVERVIEW

U.Vision+ displays the hose reel (fluid outlet) number, the type of fluid delivered, the battery life and Bluetooth® signal strength, the solenoid valve (open or closed) status, the volume delivered and delivery progress. U.Vision+ includes a six-button keypad and it can replace the U.Dat keypad for data entry in the system as it allows the following operations.

- User access through PIN entry
- Scroll through existing open job orders to select the one corresponding to each operation or enter the job order number (digits only)
- Enter the volume of fluid to be dispensed
- Confirm fluid type and transaction

U.Vision+ has a backlit display connected using Bluetooth® with a U.Valve, U.Meter+ or U.Count and it displays the following parameters:

- Hose reel (fluid outlet number and fluid dispensed type)
- Battery life and Bluetooth® signal strength
- Volume delivered and operation progress
- If the U.Valve solenoid valve is open or closed
- U.Vision+ is powered with 4 "AA" 1.5V alkaline batteries.

Fluids:

- Synthetic and mineral based oil
- DEF
- Diesel
- Antifreeze solutions

Kit includes:

383401 (U.Vision+ display) and 363114 (oil control valve)
