AAPTC28HA

# Alemlube Automotive Premium Automatic Tyre Changer

Made in Italy 

February 2022

The Alemlube Automotive Premium AAPTC28HA Automatic tyre changer is a technologically advanced, robustly constructed machine that features a pedal operated inflating device, manometer and CE certified inflation pressure limiter.

Innovative design rim locking turntable with mobile clamps gives the AAPTC28HA a clamping range from 10" to 28" (inside) for aluminium rims and from 12" to 31" (outside) for steel rims.

Two locking cylinders of 80mm in diameter control the four self-centring jaws which guarantee an optimal grip on all types of rims and the mounting tool can be adjusted vertically and laterally displaced from the rim.

Also available:

**AAPTC28** Alemlube Automotive Premium tyre changer, excluding help arm device

Note:

**AAPTCHA** Alemlube Automotive Premium help arm sold separately

## SPECIFICATIONS, FEATURES AND BENEFITS

- Pedal operated inflating device
- Clamping capacity of 10" - 31"
- Maximum wheel diameter 46" (1160mm)
- Maximum wheel width 16" (406mm)
- Bead breaker force of 2,500 kgf
- Turntable speed of 7 - 14 rpm
- Operating pressure of 116 - 174psi (8 - 10bar)
- Bead breaker force: 2,500kg
- Double speed system with pedal control
- Centring device keep the tyre and turntable in one concentric circle
- Weight of 226kg
