611200

1" BSP Diesel & Petrol Fuel Filter - Clear Plastic Bowl 100 L/min

The 611200 1" BSP Diesel & Petrol Fuel Filter with Clear Plastic Bowl is a cartridge filter with a transparent container and removable inner cartridge that can be applied on both suction and delivery.

The water separating cartridge shows the amount of impurities or water present in the transparent container. The water or impurities are emptied via a valve at the bottom of the container.

Furthermore, the 611200 guarantees the fundamental protection of motors using diesel or petrol and has a maximum flow rate of 100 L/min.

The 611200 1" BSP Diesel & Petrol Fuel Filter with Clear Plastic Bowl is popular with high flow pumping systems and is installed simply by spinning on the cartridge making replacing the filter an easy task.

PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

Capable of delivering flow rates of up to 100 L/min

Max. pressure 72psi (5bar)

Suitable for use with diesel and petrol

Water separating cartridge removes water & particles

Filtration down to 5 micron

For use with pumps up to 100L/min

Bursting pressure 145psi (10bar)

Inlet/Outlet: - 1" F Flanged BSP

Includes 1 x filter head and 1 x filter element

Dimensions of 390mm (H) x 285mm (W) x 140mm (D)

Weight of 2.3kg
