200ACB

Clear Barrel Lever Action Grease Gun

December 2021 Update

The 200ACB Clear Barrel Lever Action Grease Gun manufactured in Germany, is a cost effective alternative for intermittent, periodic and specialised greasing, in particular when using more expensive grease typically used for lubricating food grade equipment and for critical grease points.

The 200ACB with its clear acrylic barrel is differentiated from the traditional grease gun steel barrel and presents the real benefit of clearly identifying the type of grease cartridge loaded into the gun.

Featuring an ergonomic lightweight aluminium die-cast head assembly, unique Ever-Flow System enabling the use of thick/tacky greases even at low temperatures and unique Twin Lock System, the German engineered & manufactured 200ACB Clear Barrel Lever Action Grease Gun is a dependable and proven performer.

The 200ACB is also suitable for use with both 400g cartridges, filler pump and bulk grease.

General warning:

Do not use a high pressure grease fitting as a loader fitting. Excessive pressure can cause personal injury and damage to your valuable equipment.

SPECIFICATIONS, FEATURES AND BENEFITS

- Develops grease pressures up to 12,000psi (827bar)
- Delivery rates of up to 1.6g of grease per stroke
- 500g capacity when using bulk grease
- Capable of dispensing greases up to NLGI3
- Three way loading
- 16.5mm rigid extension
- Heavy duty four jaw coupler
- Three way loading
- Coarse thread on barrel eliminates the chance of cross threading
