Auto Shut Off Diesel Nozzle

August 2023

The 51037 Automatic Shut Off Diesel Dispensing Nozzle is designed for delivering diesel in conjunction with an electric diesel transfer pump.

With today's customers in mind, this nozzle is lightweight & compact yet heavy duty enough to handle the rigours of the toughest applications.

Supplied complete with a 1" BSP inlet swivel the 51037 has a flow rate of up to 60L/min and is fully serviceable with spare parts readily available if required. (Not suitable for gravity feed tank applications).

SPECIFICATIONS, FEATURES AND BENEFITS

- Automatically cuts off when a diesel tank is full
- Suitable for applications involving an electric diesel transfer pump only
- 1" BSP swivel included
- Body: aluminium. Seals: buna-n & viton.
- Outlet spout: aluminium with viton cased oil seal
- Maximum working pressure of 80psi (5.5 bar)
(Not suitable for gravity feed applications)
- Delivery rates of up to 60L/min
- Weight 1.6kg
- 51037P as above but for petrol
