SC60090

4 x 205L drums

EL SERIES

March 2024

The EL Series SC60080 2 drum and SC60090 4 drum 205L spill containers are the ideal way to manage static spill situations safely and efficiently.

Designed to manage drums up to 205 litres these spill containers are made from high strength polyethylene and are built to last in tough working areas.

These containers are designed to be easily moved by most forklift sizes and are nestable so can be easily stacked and stored away when not in use.

Both spill containers are yellow for easy identification and have a sump plug for easy draining and emptying.

The EL Series SC60080 and SC60090 spill containers help create the ideal OH&S compliant workplace environment for busy oil operation businesses.
