# 6820HAS

## 68L Mobile AdBlue® Transfer Tank with Rotary Pump & Spout

The 6820HAS 68L mobile AdBlue® transfer tank with rotary vane pump and spout is ideal for transporting and dispensing AdBlue® easily and efficiently, directly to the vehicle.

Featuring a unique design with ergonomic grip for ease of handling and lifting, the tank is equipped with solid 8" PU wheels suitable for mobility on any surface.

The tank is manufactured in roto-molded linear polyethylene, is impact resistant, UV stabilised and fitted with a filling plug complete with integrated air vent device and a lower safety tap.

Supplied standard with a manual membrane rotary vane pump with spout and 3m of delivery hose.

Please note that the pump must be thoroughly washed, cleaned and free of AdBlue® internally after each use. AdBlue® when in contact with air will bind the internals and may break the pump, voiding manufacturer and Alemlube warranties.
