September 2020

The Coxreels SHF-N-525 Spring Rewind Hose Reel has a history of dependable performance. The larger chassis and frame accommodate longer lengths and larger diameters of hose.

A dual axle support system increases the stability during operation, reduces vibration and strengthens the structural integrity of the reel. Supplied standard with antistatic 8m x 3/4" ID hose the SHF-N-525 has a pressure rating of up to 300psi.

Auto rewind easily wraps, stores & protects the hose effectively offering a longer service life.

Signature features of the SHF-N-525 3/4" ID spring rewind hose reel include professional grade heavy duty steel construction, rolled edges and ribbed disc providing strength and safety, durable, powder coat finish and multi-position lock ratchet to secure the hose at any desired length.

SPECIFICATIONS, FEATURES AND BENEFITS

- Dual axle support points to the centre shaft with Coxreels' original super hub™ axle support system
