

OWNER'S TECHNICAL MANUAL

20066N

Foldable LED Work Light

DESCRIPTION

The 20066N Foldable LED Work Light is the ideal portable workshop light due to its low heat output, stronger brightness, high shock resistant TPR housing, 3W high power super bright COB LED for large area light emission and one spot LED on the top.

A major advantage of the 20066N Foldable LED Work Light is the 150° folding design offering the ultimate in flexible positioning and convenience for hands free-use when using with the additional benefits of a magnetic base and a 360° fold away hanging hook to increase the application possibilities.

SPECIFICATIONS

Materials	Durable shock and weather resistant TPR housing. Anti-impact high transparency polycarbonate lens	
Battery	2000mAh	
Charging System	Input: 100-240VAC	Output: 5VDC
Charging Time	3 hours	
Operation Time	3 hours after full charge	
LED	1*3W COB main light and 1W head light	
Power Supply Type	Rechargeable	

Features

1. High Capacity lithium battery for long time operation
2. Strong PC lens and rubberised housing finish handle grip
3. Strong magnetic for hand-free application
4. Strong light output around 200 Lumens
5. Comes with a integral hook and straight charge
6. 1W head lamp
7. 150° fold away from frame
8. Rechargeable

Battery treatment / charging

- 3 indicators are positioned underneath the COB LED:
- 1 RED in the middle and a GREEN on either side
- When power is low the RED indicator is lit
- When charging, RED is lit and turns into the GREEN when fully charged
- Do not leave battery in full discharge condition.
- Recharge the work light at least once in every 30 days

Warning & safety Issues

Red indicator constantly on when the light is on:
It is time for charging.
Avoid looking directly into the beam
Do not use the lamp near open flames
