## A14504 90° Grease Gun Coupler

December 2022

**The Alemlube A14504 90° Grease Gun Coupler is an industrial quality grease gun coupler cleverly designed to assist in reaching difficult to access hydraulic grease nipples.**

The rubber seal incorporated in the A14504 fits all SAE and metric hydraulic grease nipples and its four strong hardened steel jaws fit snugly to most grease nipples found on fixed plant machinery and mobile equipment.

Conveniently packaged in a carded blister pack, the A14504 can be prominently displayed at the sales counter or grease nipples display board to attract maximum customer attention and incremental impulse sales.

The Alemlube A14504 90° Grease Gun Coupler fits most standard grease guns and is the ideal accessory to have on hand in the workshop and in the field for when those tricky and hard to reach greasing jobs arise.
