

HR90075

## Grease Spring Rewind Hose Reel

February 2021

The EL Series HR90075 grease spring rewind hose reel is a high pressure reel supplied standard with 25m x 10mm S.A.E.100R2AT one wire braid hose suitable for grease applications in commercial vehicle workshops, food processing, bottling plants, manufacturing facilities, pulp & paper manufacturing, minesite workshops, service vehicles and oil & gas industries.

The hose reel drum is sturdy and practical with stiffening ribs and flanged edges for operator safety. The positive latching mechanism automatically locks the hose assembly at the desired length and the adjustable arms allow for floor, wall or ceiling mounting according to needs.

The EL Series HR90075 grease spring rewind hose reel from Alemlube will provide you with a reliable & cost effective means of storing and retrieving hose assemblies in your workshop.

## SPECIFICATIONS, FEATURES AND BENEFITS

- Reinforced steel frame provides maximum strength & stability
- Working pressure of 4000psi (276bar)
- Includes 25m x 10mm S.A.E.100R2AT hose & hose stop
- 1.5mm thick robust drum assembly with stiffening ribs & flange edges
- Reliable spring life and positive ratchet lock design
- Can be mounted on the floor, wall or ceiling
- 110° Swivel base available on request
- Welding model also available
